

First tutorial - goal setting

The basics

My name is / I like to be called / my pronouns are...	
Subject I am going to be tutored in...	
My exam board (for instance Edexcel, AQA or OCR. Ask your teacher if you are unsure)	
What I need to take to my tutorials...	

My study goals

When will my final exams be taking place?	
What grade am I working at now?	
What grade do I want at the end of the year?	
What do I want to improve in my subject? (Think of some specific topics or skills you want to get better at. Set three clear goals and the time when you want to have completed them)	
Which piece of work am I most proud of so far in my subject? (Bring this to your first tutorial)	

Our tutorial goals

What is our target number of tutorials?	
When will we hold tutorials?	
How will we communicate with each other to organise our tutorials?	
Which topics and skills should we work on together this term?	
What do we want to achieve in our tutorials?	

Switch on your webcams. We strongly encourage tutors and students to use a webcam, if you both can. If there are any webcam issues, then please let us know.

Read through the platform practice sheet on the next page to make sure you are both happy and set up for your next tutorial.
